

ARMY AND NAVY FINAL DRILL

Finishing Touches Being Put
On for Big Saturday
Gridiron Contest.

Annapolis, Md., Nov. 24.—The final week of preparation for the army game began this afternoon with a short signal drill and considerable work in kicking, passing and handling the ball. There was a notable change in the temperature and the coolness which has taken the place of the uncomfortable warmth which has prevailed here tended to help the midshipmen out of a partial sluggishness which had marked their work for a few days. The coaches have given the men a new set of signals and these were used today for the first time. The high wind which prevailed made the practice in handling the ball on kicks of special value to the navy backs.

It was announced today, that, barring accident, Nichols would start the game at quarter instead of Mitchell. Harrison at fullback and McHenry at left halfback will also play. This means that the navy coaches have selected as strong and heavy a backfield as possible and expect to batter the army line from the very start. The men named are all fast for their weight and the backfield has in Nichols one of the most brilliant runners that has ever played for the navy.

Headliners.
West Point, N. Y., Nov. 24.—For two hours the army men were on the field this afternoon, busy every moment, although there was no scrimmaging. After running through their plays, the regulars lined up for dummy work against the scrubs, who stood up well under the regulars' attack, but without tackling the man carrying the ball.

The return to the squad of the big trio of injured headliners, Huston, Hodgson and Benedict, was the most gratifying thing today to coaches and men alike. All three worked for a short while in the signal drill and it looks now as if they will all start in the navy game next Saturday. Hodgson kicked splendidly today. Hobbs' punting was also up to the mark and much is expected of him if he gets into Saturday's contest.

U. S. TRAINER FOR AUSTRIAN TEAM

Boston, Mass., Nov. 25.—The appointment of A. F. Copeland of New York, as trainer in track and field events for the Austrian team in the next Olympic meet, announced in a dispatch from Vienna last night, has not been officially made, according to Dr. Otto Herschmann, president of the Austrian Olympic committee, who is in this city. Dr. Herschmann said the matter would not be decided until he had reported back to the Austrian committee.

MARINES IN ENGINE CABS

Men in Service Given Practice
for Emergency Work in
Enemies' Territory.

Washington, Nov. 25.—Marines in Camp Elliott, Isthmian Canal zone, who frequently have won admiration by reason of their versatility now are exercising their Yankee ingenuity as locomotive engineers on the Panama railroad. At the Navy department it was explained today that the marines have been put in the locomotive cabs so there may be men in the service who can be promptly put on railways on an enemies' territory to handle trains for the transportation of troops and provisions.

Secretary Garrison who commended the work of the marines at Camp Elliott on his recent visit to the canal zone issued instructions to engine drivers on the Panama railroad to direct the marines a full insight into everything connected with the operation of the locomotives.

FOOTBALL TRAINS ON THANKSGIVING

Salt Lake, Nov. 25.—The new formations used by the University of Utah football team against the Freshmen proved to be ground gainers yesterday afternoon at Cummings field and Coach Bennion expects to beat the Utah Aggies at Logan with them. The Freshmen substitutes were used against the varsity, which went for long gains every time they carried off one of their new formations. The strong showing made has put more confidence in Coach Bennion, who can see nothing but victory in the Aggie game.

Captain Rex Sutherland and Norman Hamilton, two of the Crimson eleven who were injured on the coast, were out to practice last night and each said he was willing to play the Aggie team tonight if the game was arranged. Both men limped through the fast practice with the Freshies and will have signal work tonight and tomorrow to rest up for the closing event of their career against the Aggies at Logan. McIntyre's knee is well again and Utah will have this great kicker in the field against Teetzel's men. Mac can be depended on to keep the ball in the Aggies' territory if the line will only give him a little support.

The Crimson team will use Cummings field tonight and tomorrow, while the Infants will have their work outs at the fort grounds.

Manager Robert Ferron has been rounding up the students who intend to go to Logan Thursday with the team. Ferron stated last night that two trains, one leaving at 8 o'clock and the other at 9 o'clock, would be specially for the fans who have said they are going. These trains will leave Logan at 8 and 10 o'clock.

The Logan team is putting the finishing touches on the plays and should be able to put up a hard battle. The Aggie students are building a fence around the college campus, where the game is to be played. The Adams field is in such a poor condition owing to the recent rains, that the management decided to have the game played on the college campus, which is partly sodded. Today will be "sox day" at the institution and every student will wear the loudest hose he can get hold of. This is always done before a game for the purpose of advertising.

The Logan hotels and restaurants have been ordered to have plenty of turkey on hand for the Utah fans, who will be forced to miss their home dinners in order to see the big contest at Logan.

DETECTIVE REQUESTED TO RESIGN

Salt Lake, Nov. 25.—Another "for the good of the service" discharge from the police force was handed out Monday night when Detective Bert H. Seager was requested by Captain J. J. Roberts to sign his resignation. The chief of police did not even talk with Detective Seager, but left the blank resignation in the hands of Captain Roberts for him to sign. Seager signed the blank. His resignation became effective immediately.

Seager was considered one of the most efficient men on the force and was appointed under the present administration on February 2, 1912. He has since been on duty as plain clothes man. In all Mr. Seager has had about seven years experience on the local police force having served five years prior to his appointment in February last year. He served under Chiefs Samuels, Paul, Tom D. Pitt, Roderick Mackenzie and W. J. Lynch. He resigned after this service and was appointed deputy sheriff by Joseph Sharp and assigned to duty in Salt Lake.

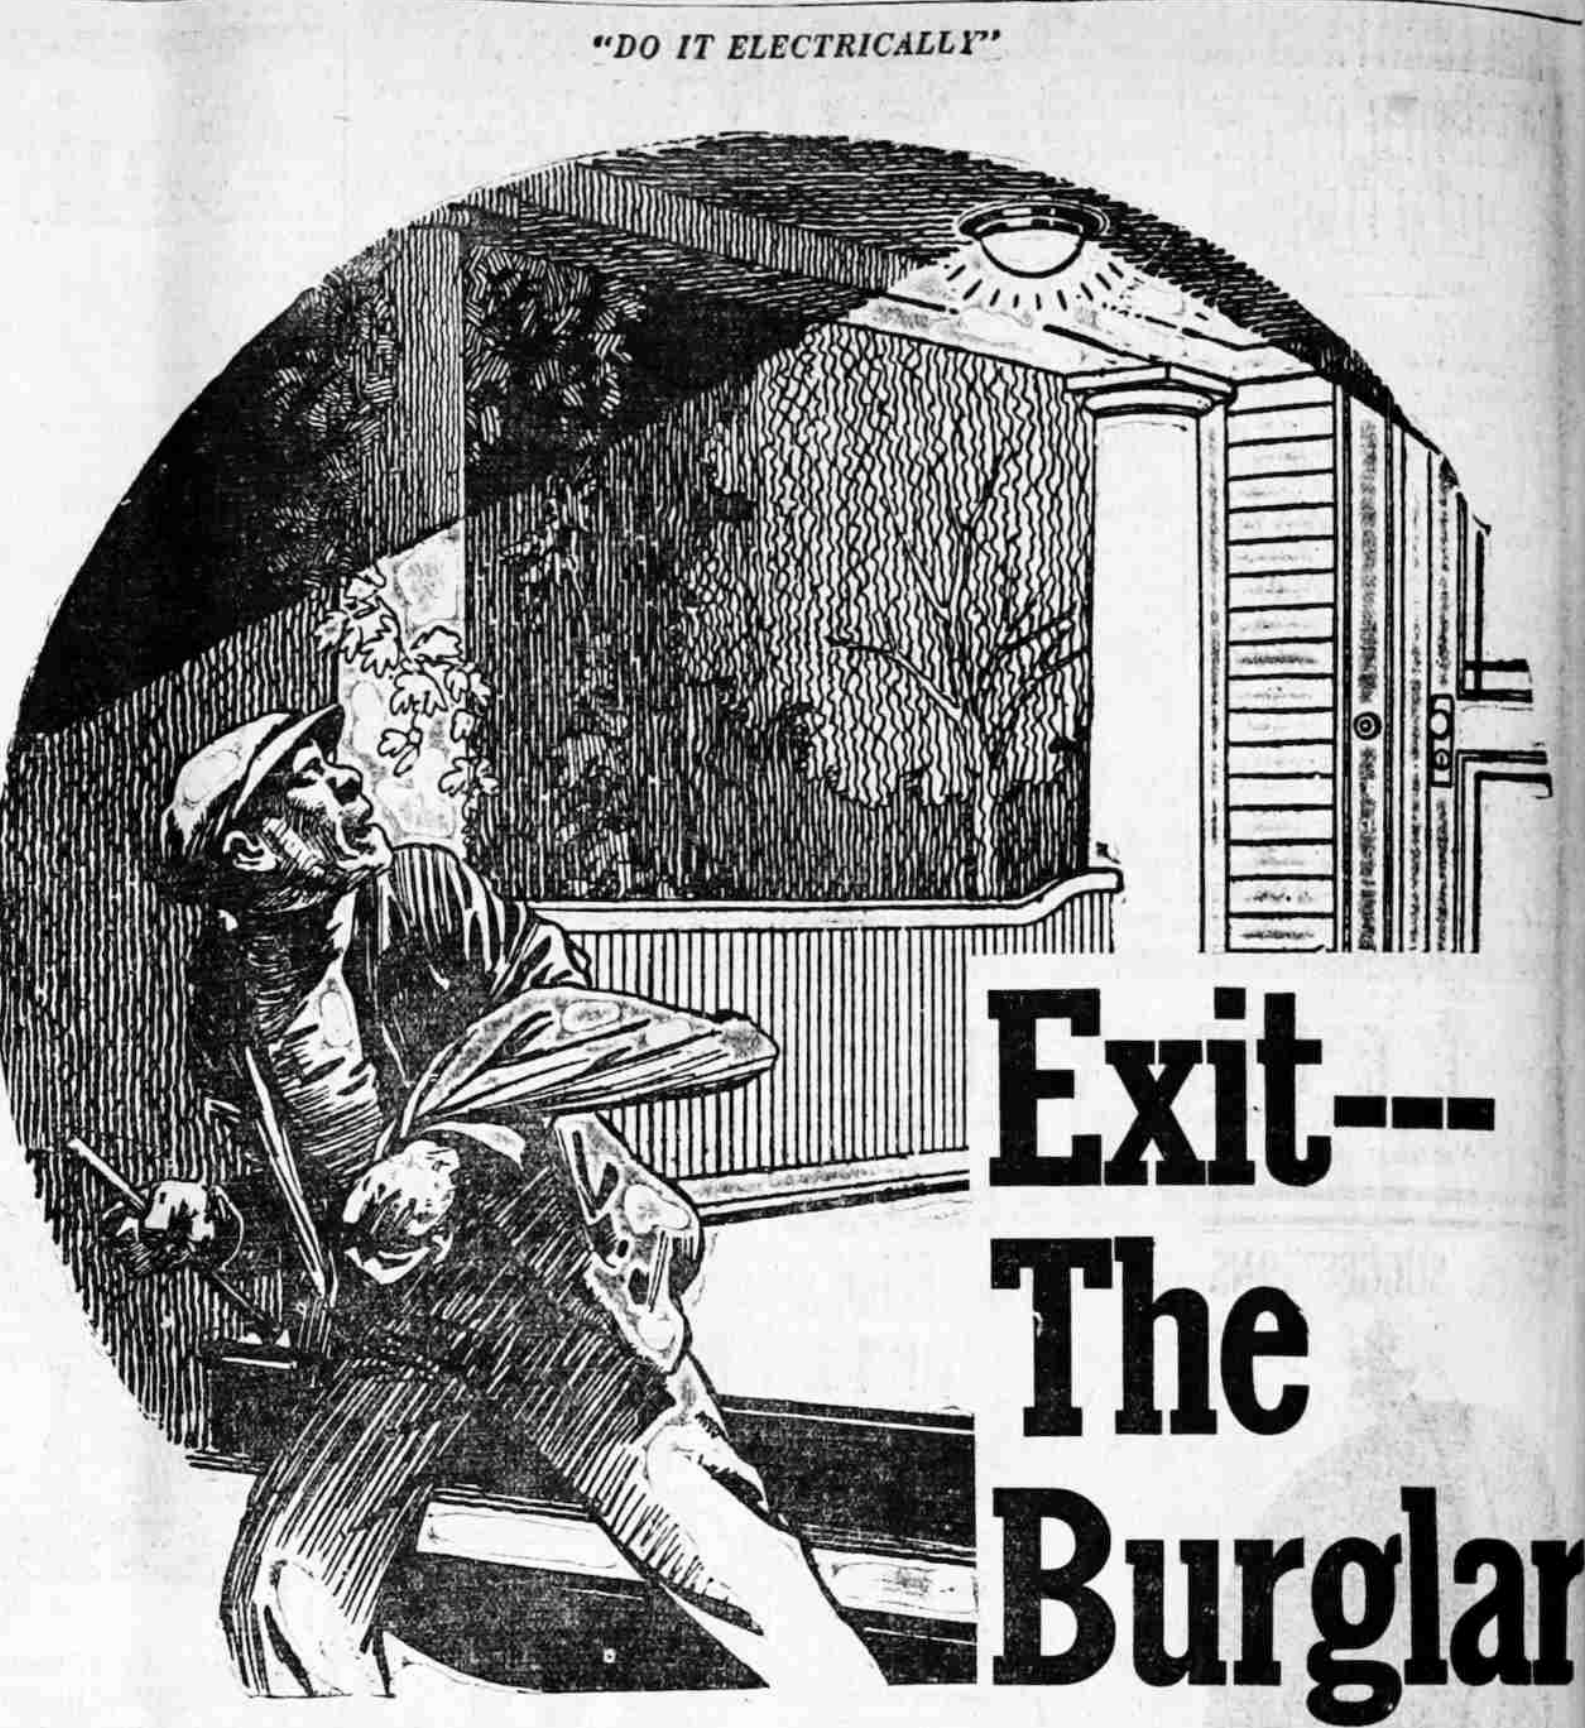

"I have absolutely no idea why I was asked to resign," said Mr. Seager last night, "and the chief apparently does not see fit to enlighten me on the matter."

EASTERN MARKET SEEKS GOOD WESTERN BONDS

Salt Lake, Nov. 25.—There is more money in the east for good bonds which yield a fair return than there has been for some time according to Charles J. Bender of the banking house of Charles J. Bender & Co. of Philadelphia, who is at the Hotel Utah. Mr. Bender said that the reason railroad securities have been depressed is due to the diversion of the money which they could formerly get to the public service corporations of the country. He pointed out that an investor could realize from 5 or 6 percent to 7 percent upon bonds issued by public service corporations, and by western municipal corporations, while railroad bonds yield only from 4 to 5 percent. The public service corporations and the municipal bonds are regarded as being as safe as railroad bonds and they are being purchased by the public.

"We have had a number of calls for Salt Lake local improvement bonds in the east," said Mr. Bender.

"In the east we believe that business is on a solid foundation and that

Exit--- The Burglar

Burglars, Blackhanders and Night Prowlers Shun the Light

A twelve candle power, fifteen watt Mazda lamp can be burned on your porch twelve hours per night at a cost of fifty cents per month. The protection such a light affords is better than burglar insurance. Insurance pays you for your loss; a light prevents loss.

A LIGHTED PORCH LAMP

is cheaper than a private patrolman and more effective. The patrolman can be in only one place at a time and designing persons can easily follow his movements. The lamp is always on duty.

A small light on the porch gives the family a feeling of security which can be obtained in no other way. Don't wait until blackhanders threaten or burglars enter. Install a fifteen watt lamp in your porch receptacle. You'll sleep better.

Buy them from us or your electric supply dealer.

Utah Light & Railway Company

"ELECTRICITY FOR EVERYTHING"

the checking up of the headlong boom will do the country good."

Mr. Bender is on a tour of the west and the Pacific coast. He is accompanied by his wife and small son.

CHARGE TRAFFIC PORTER WITH WHITE SLAVERY

Salt Lake, Nov. 25.—Charged with violation of the Mann act, Levo Brown, 30 years of age, formerly a porter on the Oregon Short Line, was arrested yesterday afternoon. He was arraigned before United States Commissioner Charles Baldwin, and his preliminary hearing was set for December 3.

Brown is alleged to have violated the white slave act in bringing a young colored girl from Pocatello to Salt Lake recently. The arrest was made by the police upon orders from Special Agent Bone, who has been working on the case. He was turned over to Deputy United States Marshal Lucien H. Smyth.

HIGHWAYMEN ACTIVE. THREE VICTIMS REPORT

Salt Lake, Nov. 25.—Charles Hallick, living at the Wabash rooming house, Jack Vaught, 629 South Main street, and Daniel Keohue, 44 East Second South street, each reported to the police department yesterday morning that they had been held up and robbed Sunday night.

Hallick, according to his story to the police, was robbed in his room of \$70 by a robber who locked the door on him, compelling him to remain a prisoner until Monday morning. He gave the police the name of the man who he said robbed him, but so far he has not been found.

Vaught said that two highwaymen encountered him on Fourth West between Fourth and Fifth South and relieved him of \$55 and his watch. Keohue reported that a Mexican held him up on Seventh East street, opposite the car barns and robbed him of \$3.

NEW POLICE CHIEF CHOSEN AT BINGHAM

Bingham, Nov. 24.—At a meeting of the city council held here this evening, Philip Culleton was elected to succeed J. W. Grant, murdered, as chief of police.

Mr. Culleton is one of the best known peace officers in Brigham and there is no question that his selection

will give satisfaction. Mr. Culleton came to Bingham from Butte, Mont., more than ten years ago and has been a resident of the camp since that time. For the past six years he has been a member of the police force, and stands high in the estimation of the public as a level headed and painstaking officer.

The council also adopted resolutions of condolence to the family of the late Chief of Police Grant, who was one of the most popular officials who ever held office in this city.

BIG LINE PURCHASE

Pocatello, Idaho, Nov. 24.—E. J. Dolbeer, proprietor of the Pebble limeloid near Bancroft, was in town yesterday and said that he had just closed a contract with the Oregon Short Line railroad for 150 tons of lime. This will be shipped to Pocatello as soon as a building is constructed to store the same. This immense quantity of lime will be used for the extensive improvements which are going on in Pocatello at this time and for others which are contemplated.

GENERAL SHERMAN'S DAUGHTER BURIED

St. Louis, Mo., Nov. 25.—The funeral of Mrs. Minnie Sherman Fitch, daughter of General William T. Sherman, was held at St. Francis Xavier's Catholic church here today and the body was buried in the family lot in Calvary cemetery, where General Sherman, Mrs. Sherman and a son of the general are buried.

Honorary Post of the Grand Army of the Republic, of which General Sherman was one of the founders, acted as a guard of honor.

SUN CULT TEACHER HOPES TO GET CLEAR

Chicago, Ill., Nov. 25.—If Ottoman Zor Adusht Hanish escapes conviction of sending objectionable literature by express in violation of the interstate

commerce law, for which he is being tried here, he expects to leave Chicago.

His "temple" in this city has been advertised for sale and he is said to be seeking a site for a colony in the vicinity of New Orleans.

Hearing of testimony continued today. "Miss Gardner," to whom he is alleged to have sent a copy of "inner studies," was Dana F. Angier, a postal inspector, who was gathering evidence in the case.

HOOPER LOSES HIS BONUS BY A POINT

Boston, Mass., Nov. 25.—Harry Hooper, right fielder of the Boston Americans, failed by a single point to attain a batting average last season which would have brought him an additional \$1000. When the official averages were published yesterday it was found that Hooper had batted .289. In his contract it was provided that he would receive a bonus of \$1000 if he succeeded in making an average of .290 or better.

WOMEN IGNORED IN HISTORIES

Washington, D. C., Nov. 25.—Women of history are not given fair play and, in fact, virtually ignored in the histories used in the local schools. Members of the College of Women's Equal Suffrage league announced today. Their protest was aroused by the report of a special committee appointed several weeks ago to look into the school books.

What form the protest will take has not been determined.

U. S. MARSHAL CLARK DEAD

Des Moines, Nov. 25.—The death of Frank Clark of Ottumwa, United States marshal for the southern district of Iowa, occurred at Excelsior Springs, Mo., early today. A message announcing the death was received by Judge Smith McPherson of the federal court shortly before noon.

Apoplexy is said to have been the cause. He was in Des Moines a couple of days ago, apparently in good health.

SWEET INNOCENT.

Mrs. Youngbridge (to fish peddler).—Haven't you any lobsters that are ripe? These look so green.

ECZEMA ON BACK, ARMS AND CHEST

Broke Out in Pimples. Itching and Burning. Seemed Unbearable. Hair Fell Out Terribly. Cuticura Soap and Ointment Cured.

Pierson, N. Dakota.—"The eczema started on my scalp. It finally went on the back of my neck, then on my arms and chest. It broke out in pimples first and then seemed to run together in some places, making a sore about the size of a dime. At times the itching and burning were so intense that it seemed unbearable. The more I scratched it the worse it became, and there would be a slight discharge from it, especially on my scalp, as to make my hair matted and sticky close to the scalp. The hair was dry, falling out this. My hair was falling so terribly that I had begun to despair of ever having any more. My clothing irritated the eruption on my back. The affected parts were almost solid scab."

"I tried using — at first, then I used Cuticura Soap and then Cuticura Ointment. I used them for two months and I was cured."

Cuticura Soap (25c) and Cuticura Ointment (50c) are sold throughout the world. A single set is often sufficient when used as directed. Liberal sample of each mailed free, with 32-p. Skin Book. Address: Post Office Box 5400, St. Louis, Mo.
